

An aerial photograph showing a river with a prominent meander loop. The river is light-colored, likely due to sediment. The surrounding landscape is a mix of green agricultural fields, some with distinct crop patterns, and areas of dense, dark green forest. A straight road or railway line runs diagonally across the upper right portion of the image. Near the road, there is a small industrial or construction site with several buildings and cleared land. The overall scene depicts a rural or semi-rural environment with significant human and natural land use.

An aerial photograph showing a landscape with a prominent, light-colored, irregularly shaped area, likely a quarry or a large pile of material, surrounded by green fields and a road. The area is bordered by a road and a line of trees.

An aerial photograph showing a landscape with a winding river or stream. In the upper right, there is a large industrial or agricultural facility with several buildings and a parking lot. The surrounding area includes fields, forests, and a road. The image is oriented horizontally on the page.

An aerial photograph showing a quarry operation. A large, light-colored, steep rock face dominates the left and center of the image. To the right of the rock face, a road runs horizontally across the frame. Below the road, there is a small, rectangular, light-colored area, possibly a storage or processing zone. The surrounding landscape consists of various agricultural fields, some of which are brown and fallow, while others are green. The overall scene depicts a quarry site integrated into a rural landscape.
